

# Carbon Reduction Plan

Supplier name: PayPoint PLC

Publication date: September 2025

## Commitment to achieving Net Zero

PayPoint PLC is committed to achieving Net Zero emissions by 2040.

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: FY 2021</b>
<b>Additional Details relating to the Baseline Emissions calculations.</b>
<b>Our GHG emissions</b> <p>In this section we report on all required GHG emissions in accordance with the Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013. The Streamlined Energy &amp; Carbon Reporting ('SECR') regulations came into effect on 1 April 2019 and we follow the guidelines to comply with these new regulations.</p> <p>We report using a financial-control approach to define our organisational boundary. A range of approaches can be taken to determine the boundaries of an organisation for the purposes of GHG reporting, including financial control, operational control or equity share.</p> <p>We are confident that we are making the progress necessary to achieve our overall objectives of achieving Net-zero in our own operations by 2030 and Net-zero across our entire value chain by 2040. Scope 1 &amp; 2 emissions have reduced by 89% since the baseline year as a result of actions taken to procure carbon neutral/renewable energy supply across the Group.</p> <p>Scope 3 emissions have increased since the baseline year as a result of the acquisitions of Handepay, Merchant Rentals and Appreciate Group (now known as Love2Shop) and the continued growth of the business across the Group including growth in the terminal estate. We continue to implement actions to reduce these emissions further with scope 3 emissions lower in FY25 than in FY24.</p>

Baseline year emissions: FY 2021:	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	60
Scope 2	320
Scope 3 (Included Sources)	444 – Scope three includes transportation & distribution, waste generated in operations, business travel, employee commuting
Total Emissions	824

## Current Emissions Reporting

Reporting Year: FY2025	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	40
Scope 2	0
Scope 3 (Included Sources)	1,234 – Scope three includes transportation & distribution, waste generated in operations, business travel, employee commuting
Total Emissions	1,274

## Emissions reduction targets

The PayPoint Group is a low impact, low carbon intensive business. We remain committed to improving what we do, including achieving Net-zero in our own operations by 2030 and Net-zero across our entire value chain by 2040. Our goal of achieving net zero in our own operations by 2030, and across our entire value chain by 2040, will be achieved by eliminating where possible GHG emissions as calculated under GHG Protocol emission factors, and offsetting residual GHG emissions that cannot be eliminated.

# Carbon Reduction Projects

## Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or are planned to be implemented since the 2021 baseline.

- Moving to carbon-neutral gas and electricity contracts at all office locations at contract renewal (completed October 2024)
- Actions taken to reduce energy usage in offices including closure of underutilised office space
- New hybrid vehicles introduced to the company car fleet in April 2023 replacing diesel company cars and petrol hire cars.
- Territory optimization dashboard and Salesforce Maps rolled out to reduce unnecessary company car mileage
- Energy consumption considered in product design
  - Developed and commenced roll out of PayPoint Mini, a more energy efficient terminal that will replace the PayPoint One
  - Transitioning from board to digital cards in Love2Shop
- Encouraging retailer partners to use renewable energy and minimise consumption
- Electric vehicle charging points installed at our Welwyn Garden City offices
- Electric car leasing scheme introduced and rolled out across the Group to support employees to purchase electric vehicles
- Cycle-to-work scheme relaunched
- Hybrid working policy implemented
- Regular programme of employee communication and training underway
- We continue to identify additional actions to reduce emissions as our strategy evolves and we will benefit from advancements in technology and the transition to renewable energy more generally

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
